Welcome McCluer basketball players, parents, and fans!

I am Kenneth Taylor and will serve as the new head coach for the ladies' basketball team this year at McCluer High School. I am honored that I get the opportunity to help develop and lead our Lady Comets and staff on our journey this upcoming basketball season. We will be kicking off this year with a fall basketball league for the ladies beginning September 8. No tryouts are necessary and the deadline to sign up with Coach Darren Lee is September 3. On August 29, we will also be offering an open gym once a week every Wednesday for our players and students. We are excited and looking forward to an eventful year this year!

I have been establishing myself as a basketball coach for nearly 20 years and have managed players on both a high school and collegiate level. Being able to coach and contribute to the growth and success of many players has given me joy and sharpened my expertise as a leader and as a mentor. I know the importance of maintaining healthy relationships with my staff, the student athletes, and their families, and I aim to do so. With my experience coaching, I intend to bring a fresh experience to our team and to not only improve their performance as an athlete, but as a student as well.

Though we will always aim for victories, I am aware that I will need to provide our athletes with an environment where they are confident enough to display their unique skills and wills. We want our ladies to have a dominating attitude but still remain positive and respectful on the court. I know that my leadership will have to help shape that and I am prepared and committed to promoting the phenomenal talent that our Lady Comets have to offer. We will need both cooperation and assurance from our athletes and parents to ensure a successful season this year. I am dedicated along with my staff to the growth of the team and our impact in the McCluer High School community.

If there are any questions or comments of concern, please feel free to contact me.

Sincerely,

Kenneth Taylor
